

# BUSINESS ADMINISTRATION ASSOCIATE OF SCIENCE PROGRAM OF STUDY

## Offered Online

This program is designed to provide an entry point for students interested in pursuing business-related careers. It focuses on a broad business core in a flexible and practical way that is ideal for adults seeking career changes or those who desire advancement in their current position as well as the traditional students seeking a career in business. The program covers key areas dealing with economics; management, marketing, accounting, and business law that prepare students for an active and successful career. Classes are offered at flexible times with evening, hybrid, and online offerings making it ideal for adult learners or students who work during the day.

The Associate of Science Plan of Study in Business Administration offers a unique point of access for anyone interested in careers in management, marketing, finance or information systems because the program articulates directly into the College of Business Bachelor of Science degree in Business Administration. Those who enter the program can get the up-to-date skills and knowledge they need to improve their current career path or move on to the MSU Billings College of Business and complete a four-year degree with options in Management, Marketing, Finance or Information Systems. See our website at [www.msubillings.edu/careers](http://www.msubillings.edu/careers) (<http://www.msubillings.edu/careers/>) for graduate data.

## Program Learning Outcomes

Upon successful completion of this program, students will be able to:

- Analyze and evaluate marketing concepts and principles.
- Apply the four management functions: planning, organizing, leading, and controlling.
- Utilize management, marketing, and accounting strategies to design a business plan.
